October 10, 1978

Cable Address "Dulac"

Admiral Stansfield Turner  
Central Intelligence Agency  
Washington, D. C.

Dear Admiral Turner:

I appreciate your thoughtful invitation and would like very much to do what you suggest. However, the suggested date is impossible for me, since I have three very important engagements here at the University that same day, all involving meetings at which I simply must preside and from which I have no way of extricating myself since they have been planned for a long time and involve many people on very important University matters.

Since it is likely that you will find others in the same situation, perhaps we could schedule another meeting later in the year or early next year with enough lead time so that all involved can nail down a free date.

On the substance of your meeting, may I say that I think it is a very good idea and that you will find the university community much more open and reasonable than they have been at times in the past. I am sure I speak for all when I applaud your initiative.

All best wishes.

Cordially yours,

*Theodore M. Hesburgh*

(Rev.) Theodore M. Hesburgh, C.S.C.  
President
